

## MODULE 1

## What is DART?

This short video (1mn) will introduce you to **DART** and how it can help you find the documents you are looking for.

DART stands for « Document Archive Retrieval Tool » and was built in 2006 by the team with the same name. It is an extraordinary resource for all the BCS Regulatory community.

## MODULE 2

## How does DART work?

You are now convinced that DART can be a very precious partner in your daily activities. Want to see what it is like and how easy it is to start working with it? The following demos will show you 7 practical use cases (1mn30 each).

## Part 1 - Simple search

## PART 2

### Multiple search

## PART 3

### Primary document

## PART 4

### Multiple search

## PART 5

### Multiple search

## PART 6

### Multiple search

## PART 7

### Multiple search

### MODULE 3

## Getting to know **DART** better

Before going further and getting your DART access rights, there are a few concepts we want you to know. The main DART concepts are illustrated in these 3 short videos (1mn30 each).

## PART 1

### Primary document and document workflow

This video comes accross the concept of document workflow. In DART, the document workflow is a key functionality to the system.

## PART 2

### Multiple search

## PART 3

### Multiple search

## Almost done!

Now that you have a pretty good idea of what DART is and what can it do for you, let's do a quick roundup:

## FINAL ROUND

## DART roundup

What is a primary document?

- ☐ Answer 1
